## Dish Clean HT

Automatic dishwasher detergent

Product # 0203

### Product Information:

CFIA APPROVED. This high temperature liquid machine dishwashing detergent is designed for use in waters of moderate to high hardness and in average soil load conditions. With low foam and powerful detergency, this product effectively removes the toughest food particles while the soil suspending and sequestering agents prevent re-deposition. For specific use in food plants, see directions.

### Directions:

Add product to electronic feed system directly from shipping container as per manufacturer's recommendations. Quantity of product required may vary depending on water conditions and soil loads. The recommended concentration range in the wash solution is 0.1 - 0.25 %. Food contact surfaces are to be rinsed with potable water before reuse.
