Technical Data Sheet

Exosolve

Industrial Degreaser

Product # 0980

Product Information:

Exosolve is a high flashpoint, low VOC product designed to be used in areas where flammability is a concern. It contains synthetic hydrocarbon solvents as well as solvents derived from coconut oil. Exosolve is particularly suitable for high temperature, high pressure cleaning operations where foam generation is undesirable.

Directions:

Apply straight with a pump-up sprayer. Let sit for 5-10 minutes. Agitation may be required for tougher soils. Rinse with high pressure spray. This product can also safely be heated to 60C and will perform better under high heat conditions.

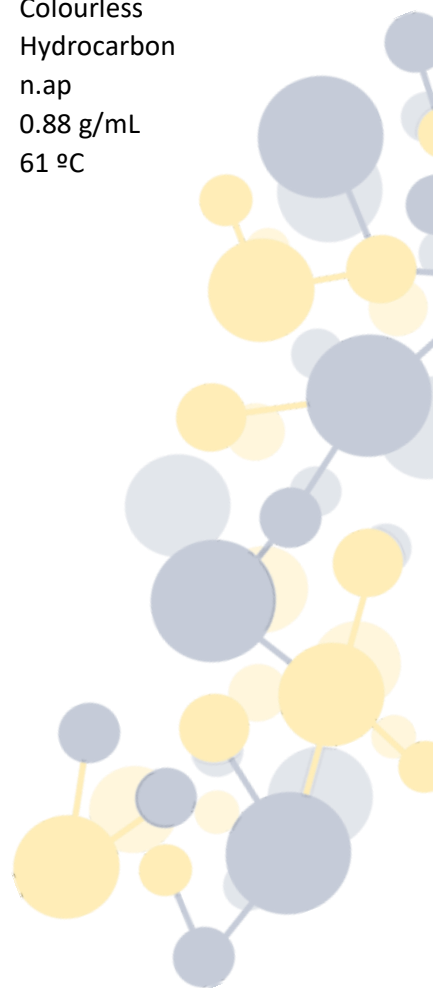

Product Specifications:

State:	Liquid
Colour:	Colourless
Scent:	Hydrocarbon
pH:	n.ap
Specific Gravity	0.88 g/mL
Flash Point:	61 °C

Packaging

Available in:

12 x 1 L	Box
4 x 4 L	Box
20 L	Pail
205 L	Drum
1000 L	Tote
