Technical Data Sheet

Neutra Soft

Laundry Soft/Sour pH Adjuster

Product # 0107

Product Information:

This product incorporates three functional laundry steps in one easy to use product. This unique formulation includes high quality souring agents and excellent cationic fabric softeners which provide static charge control while leaving clothes fresh, clean, and soft. This product should always be used in the final rinse of the laundry program. A pleasant fragrance gives fabrics a lasting freshness.

Directions:

1. During the rinse cycle, feed product directly from shipping container. 2. For manual feed, use 30 - 90 mL per load. If a high amount of alkali booster was used, more product may be required. A final pH of 5.5 - 6.5 is recommended for fabrics. NOTE: Concentrations may vary due to environmental conditions and load size. Your laundry specialist will adjust amounts required to meet your needs.

Product Specifications:

State:	Liquid
Colour:	Pink
Scent:	Odourless
pH:	1.0-2.0
Specific Gravity	1.04 g/mL
Cloud point:	n.ap

Packaging

Available in:

12 x 1 L	Box
4 x 4 L	Box
20 L	Pail
205 L	Drum
1000 L	Tote
