Technical Data Sheet

Laundry Sour

pH Neutralizer for Laundry Applications

Product # 0105

Product Information:

This formulation includes high quality souring agents which help control pH in the final washing stages while leaving clothes fresh, clean, and soft. This product should always be used in the final rinse of the laundry program.

Directions:

1. During the rinse cycle, feed product directly from shipping container. 2. For manual feed, use 30 - 90 mL per load. If a high amount of alkali booster was used, more product may be required. A final pH of 5.5 - 6.5 is recommended for fabrics. NOTE: Concentrations may vary due to environmental conditions and load size. Your laundry specialist will adjust amounts required to meet your needs.

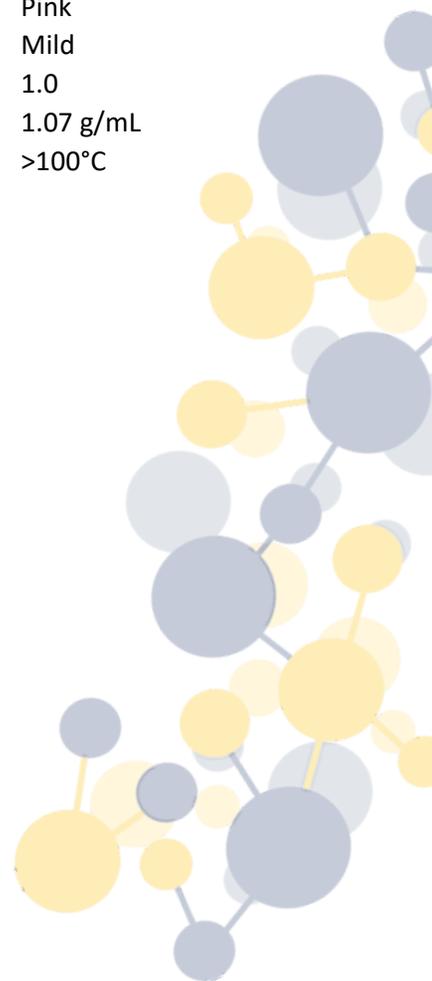

Product Specifications:

State:	Liquid
Colour:	Pink
Scent:	Mild
pH:	1.0
Specific Gravity:	1.07 g/mL
Cloud point (1%):	>100°C

Packaging

Available in:

12 x 1 L	Box
4 x 4 L	Box
20 L	Pail
205 L	Drum
1000 L	Tote
