Technical Data Sheet

Oxy Bleach Conc.

Coloursafe laundry bleach for commercial and institutional use

Product # 0111

Product Information:

Oxy-Bleach Conc. is a concentrated oxygen bleaching agent that is specially formulated for use on synthetic fabrics and coloured laundry. It may be safely used with enzyme pre-soaks or regular laundry detergents. Its exceptional mildness allows it to be added directly to the laundry during the filling operation. This product can be used in all temperatures, but provides ultimate bleaching and cleaning in hot solutions.

Directions:

1. Place proper amount of soiled linen into laundry machine. 2. In bleach cycle, feed product directly from shipping container. 3. For manual feed, use 30 - 60 mL per load. For severely stained linen, more bleaching agent may be required. NOTE: Concentrations may vary due to environmental conditions and load size. Your laundry specialist will adjust bleaching agent amounts required to meet your needs.

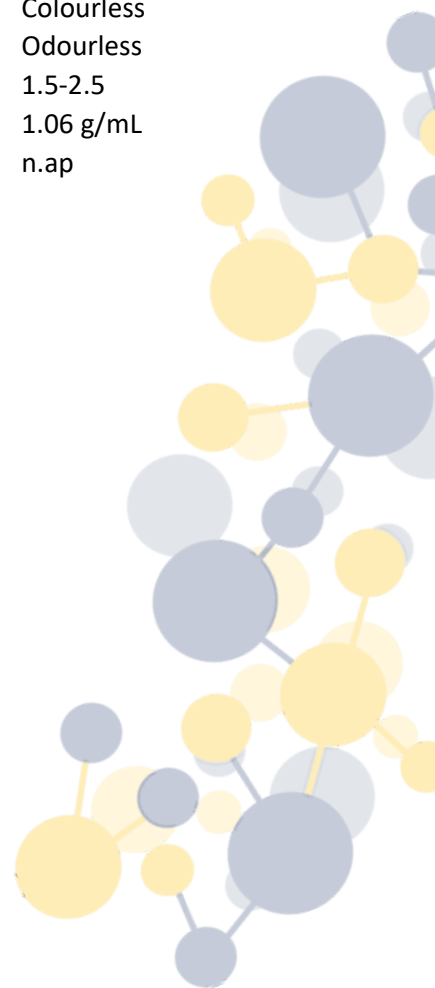

Product Specifications:

State:	Liquid
Colour:	Colourless
Scent:	Odourless
pH:	1.5-2.5
Specific Gravity	1.06 g/mL
Cloud point:	n.ap

Packaging

Available in:

12 x 1 L	Box
4 x 4 L	Box
20 L	Pail
205 L	Drum
1000 L	Tote
