Spectra Brite

Laundry detergent for commercial and institutional use

Product # 0101

Product Information:

This alkaline-built liquid laundry detergent is specifically designed for use in automated dispensing systems. By rapidly wetting and penetrating clothes, this detergent lifts and emulsifies greases and oils while preventing re-deposition. This product works well in high or low temperatures and in all water conditions. The optical brighteners leave fabrics looking bright and new while a pleasant fragrance leaves fabrics with a lasting freshness. Safe for use on all fabrics.

Directions:

1. Sort laundry prior to wash. 2. Pre-soak and/or pre-spot laundry when necessary. 3. Place proper amount of soiled linen into laundry machine. 4. During the wash cycle, feed product directly from shipping container. 5. For manual feed, use 45 - 90 mL per load. If soils are heavy, more detergent may be required. NOTE: Concentrations may vary due to environmental conditions and load size. Your laundry specialist will adjust detergent required to meet your needs. NOT FOR USE ON DIRECT FOOD CONTACT ITEMS.

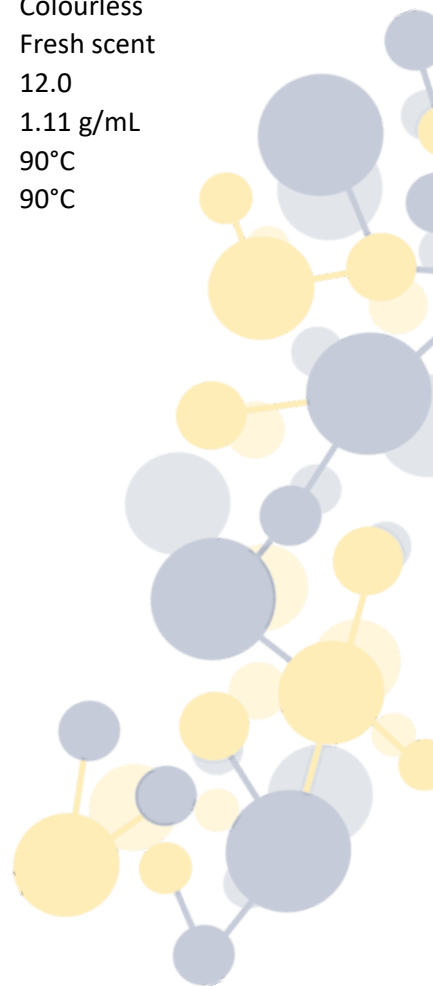

Product Specifications:

State:	Liquid
Colour:	Colourless
Scent:	Fresh scent
pH:	12.0
Specific Gravity	1.11 g/mL
Cloud point:	90°C
Cloud point (1%):	90°C

Packaging

Available in:

12 x 1 L	Box
4 x 4 L	Box
20 L	Pail
205 L	Drum
1000 L	Tote
