Technical Data Sheet

Yucca JumpStart Post

Post Emergent Treatment

Product # 0640

Product Information:

Yucca Jump Start Post is the pure, natural extract of the Mohave Yucca Plant (*Yucca schidigera*) and is specially formulated with boron and increased saponin concentration for post emergent treatment. Yucca Jump Start Post is a superior natural wetting agent that can replace common agricultural surfactants. Additionally, the steroidal saponins provide multi-functional aide to a wide range of agriculture applications. Yucca Jump Start Post stimulates plant growth by:

- Natural steroidal action
- Increasing cell wall permeability
- Improves soil conditions by:
- Increasing microbiological activity
- Leaching of salts
- Reduction of nitrate accumulation

Directions:

Post Emergent Treatment: Apply at a rate of 20 ounces (568 mL) per acre. Yucca Jump Start Post is compatible with most pesticides. This product is a natural surfactant so some foaming may occur during mixing and application.

WHMIS Classification

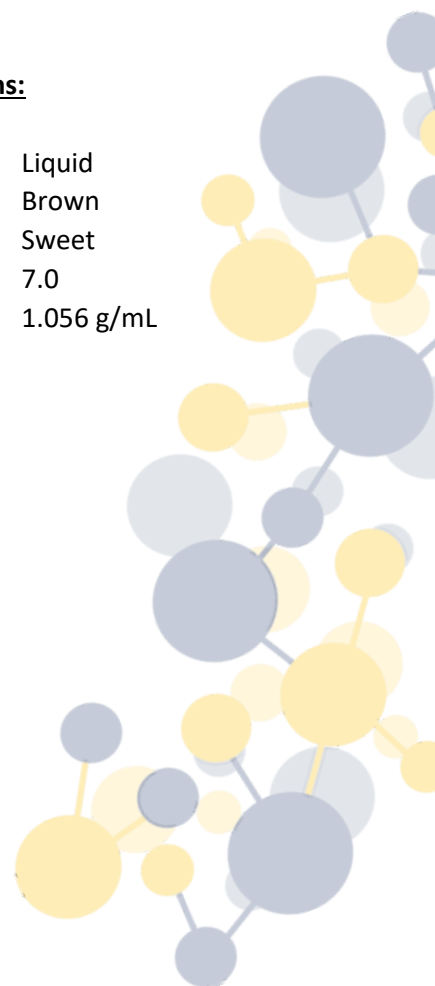

Not WHMIS Regulated

Product Specifications:

State:	Liquid
Colour:	Brown
Scent:	Sweet
pH:	7.0
Specific Gravity	1.056 g/mL

Packaging

Available in:	
20 L	Pail
205 L	Drum
1000 L	Tote
